The area consisted of a wire-fenced area,	
a mine field, a strip of plowed ground all equipped with rockets,	_
electric bells and anti-personnel mines. Four persons were arrest	
in this area when they attempted to cross t	
border into Yugoslavia illegally. If the officers and MCOs were n	
in the vicinity, at times persons cross unnolested. The pe	
for allowing persons to cross the border was five years in prison.	
There were no sp	ecial
marks on the passports of those persons living in the border regio	n,
but special passes had to be obtained from platoon leader in or	
to enter the border region. This region was divided into two area	6,

for the border guards. This meant on duty for 12 hours instead of the normal eight, additional ammunition, new Gorymov LMSs required to sleep in our uniforms.

Later, our political officer informed us that the alarm was due to the fact that the Blue AVO were attempting to cross the border into Austria near Sopron. On 23 Oct 56, a direct order to fire at anyone who approached the border from the Hungarian side. Beginning on 24 Oct 56, however, disregarded this order and allowed Hungarians to cross the border when they declared that they had relatives in DeutschKreuz, Austria.
